Lantz Choral Publications

featuring the music of
David Lantz III *and* Marti Lunn Lantz

Welcome to Lantz Choral Publications!

This page includes directions on how to locate, view, hear and purchase our music.

- Our music can be viewed, heard, and purchased at the following music retailers: **J. W. Pepper, Sheet Music Plus and Sheet Music Direct.** (*We do not sell from our own website.*)
- **A very easy way to browse all our Lantz Choral Publications titles:** On the home page, simply click on your favorite retailer. ALL our LCP titles should appear in alphabetical order.
- **If a particular title that you see on the following pages interests you,** click on your favorite retailer, and in their search bar, type in the title followed by a comma, then Lantz. For example, if you wanted to see and hear “Away in a Manger”, type in the following in your dealer’s search bar: **Away in a Manger, Lantz**
- **This catalog is a work in progress.** It will be updated periodically. You may download the catalog, or you may elect to view it online. Just keep in mind...other new products will be added, so be sure to update the catalog later.
- **For your convenience, the catalog is sorted two different ways.** First, the titles are in alphabetical order. This way you can look quickly to see if we have a title that you might be looking for. Second, it is sorted by occasion, or use, using color coding for visual help. If, for example, you only want to look at sacred Christmas pieces, you can narrow things down a bit. Keep in mind that the retailers also have useful search functions which can be used.
- **Lantz Choral Publications contains only our self-published works.** If you want to quickly see Lantz pieces with other publishers, click on your favorite retailer, and type in “David Lantz III” (or Marti Lunn Lantz) in their search bar. We are published with many other fine publishers, and we would like to market those pieces as well.

Now, go to the following pages and become familiar with the catalog!

By TITLE (Alphabetical)
